### MAY.

It is springtime again and the hollows  
Are lush with the undulate wheat;  
There is life in the leap of the swallows  
And the smell of the plowing is  
sweet;  
Love is learning to walk and he fol-  
lows  
Queen May, or she steadies his feet.

You may know when the fair couple  
passes  
By the blossoms that spring on the  
plain,  
By the cowslips that gild the morasses  
And the poppies that burn in the  
grain—  
And the hearts of the lads and the  
lasses  
Are faint with a strange, sudden  
pain!

You may know by the buds that are  
ripen  
Till the world is an orchard in  
bloom,  
And the wind-beaten petals are driven  
Abroad with the subtle perfume,  
That each year for a thousand has  
striven  
To conjure dead Youth from its  
tomb.

Today as I walked in the yellow  
Sweet rain that the locust tree flings  
I heard far above me the mellow  
And infinite murmur of wings;  
'Twas the bees with their violoncello  
And their harp of a thousand strings  
May is coining her new dandelions  
And has rented the earth for awhile;  
The crocuses and wandering scions  
Of Arbutus her laughter beguile,  
She weeps and a million Orions  
Are ablaze in the light of her smile!

Next month is the season to marry,  
As any sweet country girl knows,  
And May, the benevolent fairy,  
Is bringing full many a rose—  
Till the temple is fit she will tarry,  
And will give June the keys when  
she goes.

ing Post.

### THE WEEK IN SOCIETY.

The social calendar this week is somewhat akin to the famous cup, warranted to cheer but not to inebriate, for while there has been enough doing to prevent stagnation there is no tendency to undue dissipation. The first touch of summer has been with us, and though it has not prevented some charming indoor afternoon and evening functions, it but works the beginning of then end. Outdoor life has been emphasized by the first all fresco entertainment of the season, the opening of the baseball park, and the summer theater. The society girl bids fair to become a baseball devotee and is showing her cleverness thereby, for the national game is absorbing the masculine notice at present, and she must put herself in touch with his interest if she does not wish to be quite left out. Many of the charming suburban homes have been opened up this week, and soon society will be

turning its face westward, for house parties, week-end parties, and various informal pleasures will make Arcadia the center of attraction. It is a little early for the porch parties, for we have hardly adjusted ourselves to summer, as yet, but soon these informal gatherings will be the chief interest of society.

### MISS ELIZABETH SINNOTT, HOSTESS.

The attractive Sinnott home on North Ninth street was the scene of a pretty party on Wednesday evening when Miss Elizabeth Sinnott entertained a number of guests most charmingly at cards. There were twelve tables of euchre and the prizes were very elaborate. The head prize for ladies, a pretty fan, was won by Miss Mabel Riecke, and Mr. Roy Cutley captured the gentlemen's prize, a handsome scarf pin. Dr. J. Q. Taylor won the lone hand prize, a copy of "Lovey Mary." The ladies' consolation prize, a fan, went to Miss Ethel Morrow, and Mr. Thomas Leech received the gentlemen's consolation prize, two cravats. A delightful luncheon was served during the evening. The guests were: Mr. and Mrs. Thomas C. Leech, Mrs. Leslie Samuels, of Bardonia; Miss Edna Ritter, of Oakland, Cal.; Miss Catharine Baird, of Nashville, Tenn.; Miss Flora Nell, of Louisville; Misses Lillian Rudy, Myrtle Decker, Martha Leech, Ruth Weil, Jessie Nash, Ethel Morrow, Misses Mabel Riecke, Carline Sowell, Faith Langstaff, Mary Sykes, Clara Thompson, Anna May Yeiser, Sadie Paxton, Hallie Hisey, Laura Sanders, Minnie Terrell, Mary Lee Clark, Messrs. ### AFTERNOON TEA AT "THE FERNS."

Mrs. Elbridge Palmer and Miss Frances Gould are entertaining at 5 o'clock tea al fresco this afternoon in farewell to Mrs. Will Gould, who returns to her home in New York, and Miss Alice Compton, who will spend the summer in England. "The Ferns" is an ideal place for the occasion and the grounds are looking most charming. The hostesses and the guests of honor are assisted in receiving by: Mesdames W. W. Powell, Muscoe Burnett, Cook Husbands, James Smith; Misses Minnie Ratchliffe, Birdie Nash, Emma Reed, Mary Sykes, Letitia Fowell. The receiving party is stationed under a pretty canopy of vines, and the charming summer gowns give a most picturesque effect. A number of guests are present.

### MORNING CARD PARTY AND LUNCHEON.

Mrs. Victor Voris, to whom entertaining is as much a joy as it is a grace, entertained in her own manner at her pretty home on West Broadway on Wednesday morning at 8-hand euchre, complimentary to Mrs. James Rudy's guest, Mrs. Henrietta Jackson, of Denver, Col. An attractive 2-course luncheon was served at noon. The guests were:

Mrs. Henrietta Jackson, of Denver; Mesdames John Keller, W. F. Bradshaw, George Thompson, Campbell Flournoy, Harris Rankin, A. B. Sowell, A. J. Decker, James Rudy.

### FLINCH PARTY TO VISITOR.

Miss Nellie Sharon gave a pleasant flinch party on Wednesday evening at the home of her sister, Mrs. Joseph K.

## LABORATORY OF THE INLAND REVENUE DEPARTMENT.

OTTAWA, December 10, 1902.

THOS. MACFARLANE, Esq., F. R. S. C.,

Chief Analyst Inland Revenue Department

SIR: I beg herewith to submit a report of my work on Breakfast Foods.

These samples, as you are aware, were not collected and examined because of any suspicion regarding their wholesomeness or genuineness, for they were believed to be, as their analysis proves them to be, nutritious and palatable foods. In view, however, of the high prices at which they are sold, and of the extravagant claims put forth by their manufacturers as to their digestibility, nutrient power, etc., there exists a wide-spread demand for information as to what they really are, and how much of all the value claimed for them they really possess.

GRAPE-NUTS is away in the lead of every other food in the following respects: It has less moisture, less fat and less starch; it has more dextrin and is more soluble than any other food.

The first four are the most heavily advertised cooked foods in the world.

We will furnish any enquirer with the names by mail, but prefer to omit them in a public announcement of this kind.

In the sixth column, under Dextrin, observe Grape-Nuts percentage is more than NINE TIMES the small one, and nearly double the next best food.

DEXTRIN is the form of sugar that the starch part of grain is turned into before it can be digested. Dextrin is the part that makes human energy.

The four blank spaces in this column showing no Dextrin whatever, apply to that number of uncooked foods.

## DON'T FORGET

Grape-Nuts has about double the energy-producing power of any food on earth.

## IN THE LAST COLUMN

Is shown the percentage of food that is ready for immediate digestion.

Grape-Nuts has over sixteen times the amount of digestible food as the least one, and about two-thirds more than the next best food made.

Scientifically made food works wonders for the users.

Six years ago Grape-Nuts started to supply the public with a scientific food, fully and correctly cooked at the factory, and made to supply the certain elements needed in making the gray substance in the brain and nerve centres, and to supply human energy, while at the same time furnish

A food so easy of digestion that an Infant's Stomach will handle it without question

The public made

Grape-Nuts

A tremendous success

And this started the long procession of followers, whose facetious names, odd movements and funny pictures have brought more or less derision upon them, for the public mind is shrewd to understand that imitators are fundamentally ignorant of food value, and simply "cook up" something, and hire an advertiser to "copy Post as near as you can."

But the analysis of government and other prominent chemists, turns light on the question, and the public can profit thereby.

We believe these cereal foods are practically all cleanly. But their makers do not understand how to produce a food with anything like the genuine food value of

The Old Original Giant of them all
